

# String Operations

These String Operations blocks return information about strings or perform manipulations on strings.

Block	Icon	Description
<a href="#">Concatenate</a>		Joins multiple text strings into one string
<a href="#">Left</a>		Returns the specified number of leftmost characters from a string
<a href="#">Length</a>		Returns the number of characters in a string
<a href="#">Right</a>		Returns the specified number of rightmost characters from a string
<a href="#">Substring</a>		Returns a specific substring from a string
<a href="#">Replace</a>		Replaces a substring of a text value
<a href="#">Trim</a>		Removes all leading and trailing whitespace from text
<a href="#">Split</a>	no icon	Separates an input string into pieces, as defined by a delimiter, and returns the pieces as rows in an output table
