

Get Started

To start using Project Assist, take the following actions:

To get started:

1. [Log in](#) to DGLux5.
2. In the menu bar, click **Project** and select **New Project**.

3. Make sure **Create New** is selected. Under **Profiles**, choose **Project Assist**, and double-click the PA2 template.

4. Name your project, and click OK.

Your project opens in the DGLux5 Project Panel.

5. In the Project Panel, double-click `index.dg5` to open it.

6. Right-click **Preview** and select **Open Viewer Link**.

The Project Assist home page opens.

Now you can start creating your project.
