

Video: Manage Navigation

To manage navigation for your Project Assist project, either watch the video, or follow the steps on these pages:

- [Add Location Nodes](#)
- [Add Device Nodes](#)
- [Add Module Nodes](#)
- [Add a Generic Node](#)

Topics covered in this video are:

- General information about managing navigation: 0:00 to 0:42
- [Adding location nodes](#): 0:42 to 1:11
- Nesting and duplicating nodes: 1:11 to 2:02
- [Device nodes and templates](#): 2:03 to 3:48
- [Modules](#): 3:49 to 4:21

After watching this video, you might want to continue to the next video: [Manage Dashboards \(1 of 2\)](#).

[Previous: Edit a Theme](#)

[Next: Add Location Nodes](#)
