

View Deck Properties

These properties affect the [repeater](#) that populates a view deck.

For a guide to using view decks, see [View Deck](#).

View decks are also affected by [Common Properties](#).

The View Deck properties in the Property Inspector

Click to display/hide all elements

Symbol

Defines the symbol to be used when iterating the rows of the linked table.

If the symbol is in this project, enter the name of the symbol.

To use a symbol from another project in your library, enter the path to that symbol.

The Symbol property

Data

Defines the table for the repeater to use as the data source.
