

# Work Behind Panels

To make all [undocked](#) and pop-up panels translucent, hold down the H key. While you are holding H, you can interact with content in a docked [Document window](#).

The screenshot shows a Dataflow application interface. At the top, there's a breadcrumb navigation: "Dataflow" > "Stage" > "number". A "number" panel is visible on the right with a value of 3. In the center, a table titled "Total Leads by Month" is displayed. Below the table, a gauge chart shows a value of 418. The interface is cluttered with various panels and controls, including a "string" panel with value 2, an "add" panel, and a "Properties" panel. A mouse cursor is visible over the table.

Month	Referral	Event	Internet	Phone	Other
2015-01	15	0	120	27	20
2015-02	170	180	320	190	230
2015-03	150	200	350	90	180
2015-04	220	330	70	90	150
2015-05	165	30	300	340	190
2015-06	300	350	220	170	90
2015-07	23	30	240	80	130
2015-08	10	10	110	30	10
