Import a Project

DGLux5 can import projects that were created with DGLux5. Projects are imported as `.zip` files.

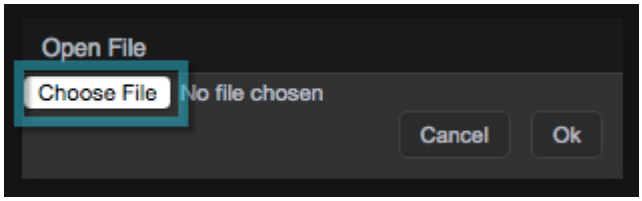

Method 1: Main Menu

To import a project using the Project menu:

1. In the Main Menu, select **Project** > **Export/Import** > **Import Project**.

2. Click **Chose File**.

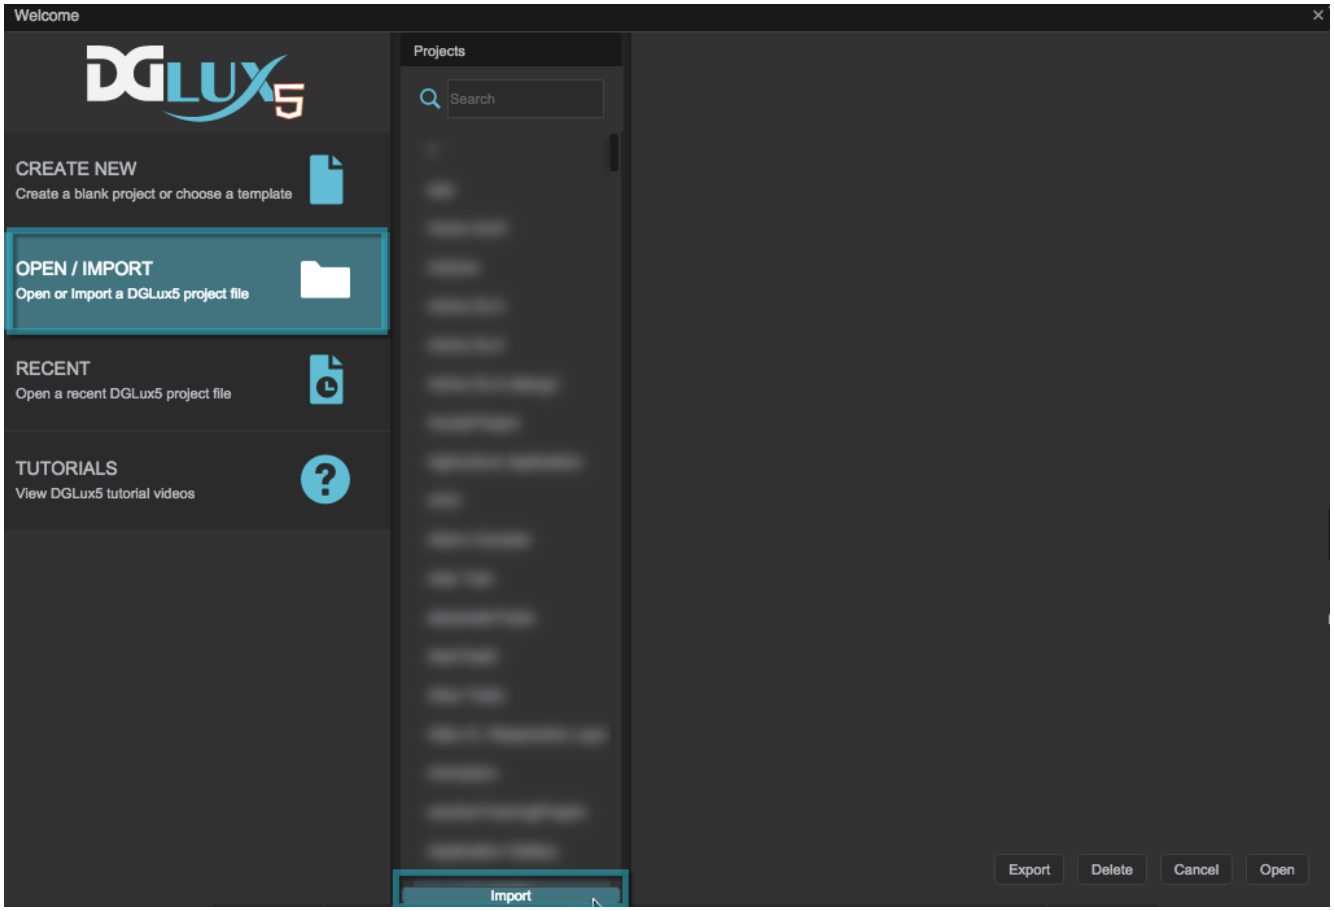

3. Browse to the `.zip` file on your computer, and click **OK**.

   Do not unzip the file.

Method 2: Welcome Dialog

To import a project using the Welcome dialog:

1. Select **Project** > **Open Project** to open the Welcome dialog.
2. Select **Open/Import**, and click the **Import** button at the bottom of the project list.

3. Browse to the `.zip` file on your computer, and click **OK**.

   Do not unzip the file.

Previous: Open a Project

Next: Export a Project
