

Round Gauge

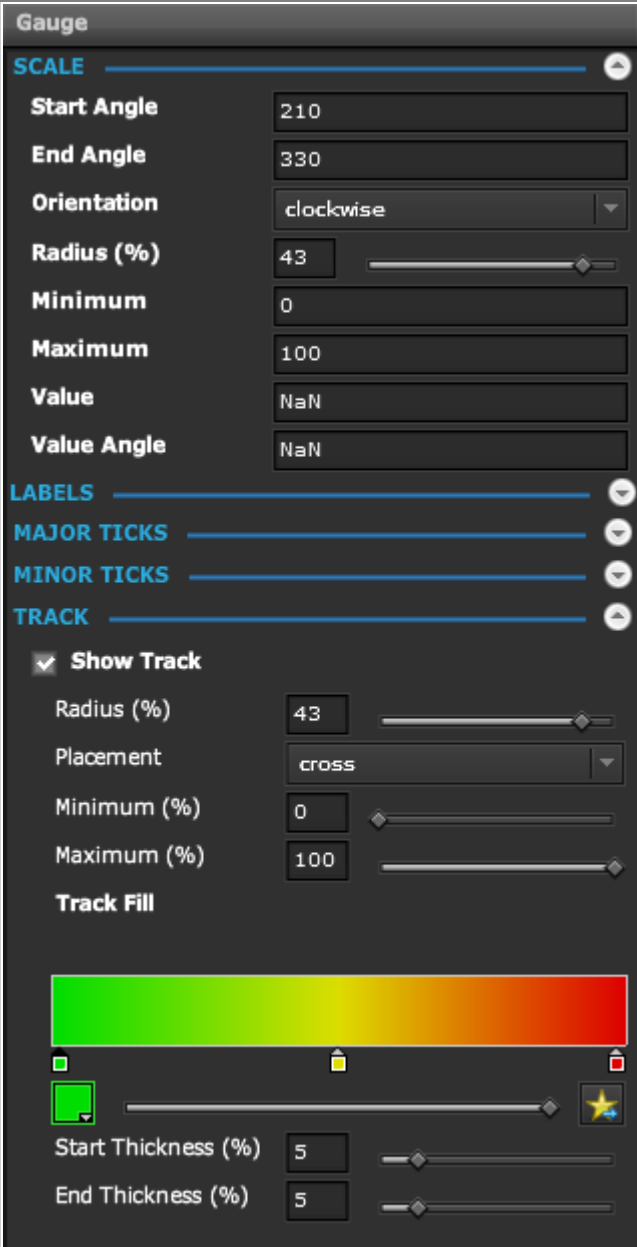

Simple Widget Description

Styles

Properties

Preview	Property	Description
 <p>The image shows a configuration panel for a 'Gauge' widget. It is divided into several sections: 'SCALE' with fields for Start Angle (210), End Angle (330), Orientation (clockwise), Radius (%) (43), Minimum (0), Maximum (100), Value (NaN), and Value Angle (NaN); 'LABELS' with expandable sections for MAJOR TICKS and MINOR TICKS; 'TRACK' with a checked 'Show Track' option and fields for Radius (%) (43), Placement (cross), Minimum (%) (0), and Maximum (%) (100); and 'Track Fill' with a color gradient bar and fields for Start Thickness (%) (5) and End Thickness (%) (5).</p>
